We are looking for a

Toxicology Laboratory Head (F/M)

Job site: Centro Ricerche Bracco, Colletterto Giacosa, Turin (Italy)

The candidate's major responsibilities will be:

- to maintain state-of-the-art scientific and technical knowledge in the area of in vivo/in vitro toxicology
- to conduct GLP studies (7-28 days dose in rodents)
- to interpret study results and consequently to write reports, documents for Regulatory purposes and scientific publications
- to participate in Research and Development project teams
- to design and monitor toxicity studies performed at CROs
- to liaise with key consultants and scientists in the field.

The candidate's education, experience and skills should be the following:

- Degree (Ph D more desirable) preferably in biology or veterinary medicine
- at least 5 years of work experience as Study Director
- good experience and training in animal care/legislation
- good organisational skills
- good command of English

The ideal candidate is highly motivated and is a committed team player

Interested candidates should send their CV, references and a cover letter quoting ref: "LH toxicology" to:

simona.bussi@bracco.com
